

Problem-3 👍

File problem:-

1. Create a text file with 20 names (vertically)
2. Read file with Python and store all the names in list.
3. Display all the names by numbering.
- 4 . Ask user to delete 4 names from file.
- 5 . Check file.
6. Write delete names from list to file.
7. Check file again.
8. Print thank you python

All the best
